

I listen to K-Love Radio on several FM transmitter stations. I have been made aware that a LPFM station may be allowed to take a priority over my local station. K-Love provides a healthy family oriented radio station. It is the only radio station in many areas, mine included, that plays contemporary Christian music. I know of many people, young and old, who are uplifted every day by the programming on this listener supported station. It would be a detriment to our community if this programming were to be replaced by other formats. K-Love provides local event information for positive Christian events that are ignored in other media venues. Please help us keep a positive influence in our West Texas area by keeping our K-Love FM transmitter stations active.
